

QUALITY POLICY

MARFRAN S.r.l., founded in 1987, is the complete representation of Franceschetti Elastomers from one generation to the next and operates in the plastic materials compounds sector. The company is particularly specialized in the production of thermoplastic rubber (TPE) used in diverse sectors such as footwear, sporting goods, house wares, automotive and construction.

In 1993, the company already began to diversify by reducing its share in the footwear market to purchase significant shares in the sporting goods, technical components and automotive markets. From the beginning of 2010, the company has been further expanding its production to the polyethylene sector. In October 2020, the company changed his name in MARFRAN Srl

Thanks to market familiarity on the part of our management and technical staff, the company has recorded a progressive increase in sales over the past fifteen years and has become increasingly known as a reliable technical partner particularly adept at providing solutions to compound problems met by our clients.

MARFRAN S.r.l. boasts capability and experience in providing clients with assistance and technical support. Our Customer Service makes use of the laboratory technical organization to provide clients with prompt, effective technical solutions.

The organization includes a Master and Sample department that can rapidly prepare samples of every catalogued material.

The products portfolio is one of the most diverse on the market and includes:

- SEBS-based TPE-S for injection and extrusion moulding
- SBS-based TPE-S for injection and extrusion moulding
- Polyolefin-based TPO for injection and extrusion moulding
- Polyethylene-based TPE compound.
-

In general, the business organization can provide the client with the right interface for every technical, commercial and logistical aspect.

Found among our objectives is the will to ensure quality, timeliness and reliability of our supplied products so as to satisfy client expectations, promote product and process innovation, all with the goal of strengthening our position within various market segments and gaining entrance into new markets.

The quality policy described above is reflected in business operations and is regularly reviewed, validated and shared with management.
